

Mask Exemption Guidelines

Retail Corporation

A mask is normally required for a person to enter store premises. However, if you belong to one of these groups, you are exempt from wearing a mask.

- **Children aged nine or younger**

Note: Children aged two to nine are encouraged to wear a face-covering in public.

- **People experiencing homelessness**

- **People with a medical condition**

Note: If possible, wear a non-restrictive covering such as a face shield. You do not need to provide documentation of your condition.

- **Employees instructed to not wear a mask by their employer**

Note: The employer must abide by local, state, and federal guidelines + workplace safety guidelines.

- **People requiring services involving the face or nose**

Note: A mask must be worn after services are complete.

- **Patrons seated at a restaurant**

Note: Maintain a distance of six feet away from persons not associated with your table.

- **Individuals engaging in outdoor activities**

Examples of outdoor activities include swimming, walking, hiking, bicycling, or running.

Note: Household members may remove masks around each other. Your party and others must be six feet apart while outside.

- **Incarcerated persons and corrections officers**

Jails and prisons have developed their own guidelines for face covering (refer to specific jail or institution for further instruction).
